Magnetic Wireless Power Bank

Product Features

Magnetic Design

The MagSafe magnetic version is equipped with N52-grade neodymium magnets, boasting strong adsorption power, stable charging, and it is not prone to falling off.

Wireless Charging

It supports 15W wireless charging, featuring a fast charging speed. This can meet your daily usage needs without the need for a charging cable.

Ultra-thin and Portable

It can be easily put into a wallet, pocket or bag, allowing you to charge your devices anytime, anywhere.

Product Applications

In - car Charging

It can be magnetically attached to the car mount to charge your iPhone.

Home Office Use

Place it on your desk to wirelessly charge your devices. This helps keep your desk tidy and boosts work efficiency.

Charging During Travel

It is convenient to carry during trips. You can attach it to your backpack and charge your devices at any time, relieving your battery anxiety.

Specification

Item	P039
Battery Type	Li-Polymer 626280
Capacity	5000mAh
Input	Type-C: 18W
Output	Type-C: 20W Wireless charging: 15W Max (Qi2)
Function	LED indicator, Wireless charging, MagSafe
Material	Aluminum alloy+PC
Size	106*64*12mm
Weight	147g

- Qi2 15W Wireless Charging

Qi2

Specification

Item	P068	P074

Size	106*71*20mm
Weight	210g

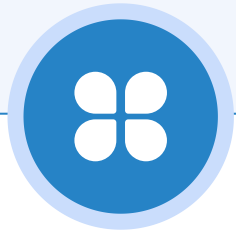

- PD30W Fast Charging

03

Power Bank with Built-in Cable

Product Features

Multi - cable integration

It has a built - in three - in - one cable integrating Type - C, Lightning, and USB - A interfaces, which can meet the charging needs of multiple devices.

There is no need to carry multiple cables, reducing the burden of luggage and facilitating travel.

Fast Charging

Up to 22.5W fast charging technology with a high charging speed, which can quickly replenish the power of devices. It is compatible with multiple fast charging protocols such as PD and QC, showing strong adaptability.

Large Capacity

With a capacity of 10,000~30,000mAh, it can charge multiple devices, meeting the needs of business trips. It is equipped with an intelligent chip that can automatically identify devices, optimize charging efficiency, and protect devices.

Product Applications

Business Trips

In scenarios such as airports and high - speed rail stations, it can quickly charge devices, saving time.

Household Use

It can charge various devices at home. There is no need to buy multiple chargers, thus saving space.

Charging During Travel

During travels, it can charge multiple devices, reducing the number of chargers and lightening the luggage burden.

Specification

Item	P083
Battery Type	Li-Polymer 105555

- **35W Fast Charging**
- **Built-in Cables**

Specification

Item	PL13-20K
Battery Type	676074
Capacity	20000mAh
Input	Type-C1/C2/Type-C Cable: 65W
Output	Type-C1/C2/Type-C Cable: 65W Lighting Cable: 18W USB-A: 22.5W
Function	Screen indicator, Built-in cables
Material	ABS
Size	106.5*74*31mm
Weight	460g

- 65W Fast Charging
- Built-in Cables

04

2-in-1 Hybrid Charger

Product Features

Widely Compatible

Compatible with multiple fast charging protocols such as PD and QC, it has strong adaptability.

Two Modes

In the socket mode, it can charge multiple devices. In the power bank mode, it is portable, allowing for flexible use.

Built-In USB-C Cable for

USB-C Port for

Large-Capacity

With a capacity of 10,000mAh, it can charge multiple devices, meeting the needs of both home and office use.

Product Applications

Household Use

In the socket mode, the charger can power household devices. The power bank mode allows for easy portability, catering to different needs.

Office Scenarios

On the office desk, using the socket mode to charge devices helps keep the desktop tidy.

The power bank mode is portable, enabling you to charge devices during business trips.

Charging During Travel

During your travels, you can use the socket mode to charge your devices. The power - bank mode, which is portable, adds to its convenience and practicality.

Weight	238g

- 2-in1 Hybrid Charger
- PD30W Two-way Fast Charging
- Built-in Cable

05

High-Power Power Bank

Product Features

High Power

With a charging power of up to 140W, it can recharge itself in 30 minutes. This high charging efficiency saves you time.

Large Capacity

Boasting a large capacity of 30,000mAh, it can charge both laptops and cameras simultaneously, meeting the demands of studios.

Multi - device Charging

It can charge multiple devices simultaneously, meeting the charging needs of various devices in the studio.

Product Applications

Sudio

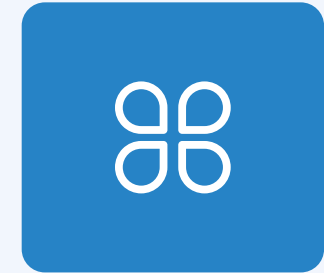

In the studio, it can charge devices such as laptops and cameras, meeting the charging needs of multiple devices. With high - power charging, it saves time and boosts work efficiency.

Home Office Setup

It can charge a variety of devices at home, eliminating the need to purchase multiple chargers and saving space. Its large capacity ensures long - term power supply, fulfilling the charging requirements of home - office equipment.

Charging During Travel

During travels, it can charge multiple devices, reducing the number of chargers and lightening the luggage burden. With high - power charging, it quickly replenishes the power of devices, solving power - related issues during the journey.
