

ABS Case HDMI 1.4 AF to USB 2.0 AF Capture Card Fullink Model No.: 1051

Specification:

1. **Input** HDMI 1.4 AF (4K@30Hz)
2. **Output** USB 2.0 AM (1080P@30Hz)

ABS Case HDMI 1.4 AF to USB-C/M Capture Card Fullink Model No.: 1061

Specification:

1. **Input** HDMI 1.4 AF (4K*2K@30Hz)
2. **Output** USB-C/M (1080P@30Hz)

- 1.The design is simple but not easy, adopt a unique wire drawing process which makes ABS cases have metallic texture and typical business style
- 2.The cambered surface design is in line with ergonomics and feels more comfortable
- 3.With USB2.0 AM or USB-C/M output
- 4.Small size and easy to carry, reserved lanyard hole to prevent loss
- 5.Based on high-speed USB 2.0 technology, it can capture one single channel HD HDMI video signal for high definition acquisition, live broadcasts, conference rooms, video recording, teaching recording, medical imaging, game entertainment live broadcasting, etc
- 6.No driver needed
- 7.Support the third party push stream and video processing software
- 8.Compatible with Mac OS, Windows 7/ 8/10, Linux
